Profile Summary

Dynamic and forward-thinking UI and future full stack developer with two years of hands-on experience in crafting intuitive user interfaces and a fervent ambition to expand expertise into full stack development. Proficient in utilizing a diverse range of technologies and frameworks to design engaging and user-centric experiences. Possessing a keen eye for detail and a passion for staying abreast of emerging trends and technologies in the ever-evolving landscape of web development. Proven ability to collaborate effectively with cross-functional teams to deliver high-quality solutions that exceed client expectations. Committed to continuous learning and personal growth, poised to leverage acquired skills and knowledge to tackle complex challenges and drive innovation in the field of software development.

Education

B.Tech/B.E.
Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV), Bhopal
2022 Full Time

Technical Skills

✓ **Angular**   ✓ **HTML and CSS**   ✓ **Javascript**   ✓ **TypeScript**

✓ **Java**   ✓ **OOPS Programming**   ✓ **GIT**   ✓ **Bitbucket**

✓ **Scrubber**   ✓ **JIRA**   ✓ **Spring Boot**

Work Experience

Development Engineer
Calsoft

- Developed and maintained user interfaces using Angular, HTML5, CSS3, and TypeScript.
- Collaborated with the back-end development team to integrate UI components with server-side logic.
- Participated in the entire software development lifecycle, including requirement gathering, design, development, testing, and deployment.
- Optimized application performance through code refactoring and implementing best practices.
- Conducted code reviews to ensure adherence to coding standards and best practices.
- Worked closely with UX designers to create intuitive and visually appealing user interfaces.
- Collaborated with cross-functional teams, including product managers, QA engineers, and stakeholders, to deliver highquality software solutions.
- Assisted in troubleshooting and resolving UI-related issues reported by end-users.

Project Details

Cisco UCS Manager vCenter Remote Plugin

353 Days

Working on transforming VMware VCenter local plugin to a remote plugin which was developed using Angular. It involved transformation as per new architecture. Used VMWare Clarity framework as a fronend framework. In this project i worked as senior resource. And many more....

Cisco HyperFlex HTML plugin for VMWare vCenter

749 Days

Development of new component in Angular. Writing new and fixing existing validations. Fixing Bugs. Development of Login page and Registration page, consuming JWT token, authenticating user manage session. And many more..

SkillSync

This project did by my own.

1 Months

Over the past few months, I've dedicated my time to creating an application that I believe holds great promise in enhancing our team's collaboration and problem-solving abilities.The application, built using Angular for the frontend and Java with Spring Boot for the backend, aims to streamline communication, facilitate knowledge sharing, and empower team members to solve problems more efficiently.
Here's how SkillSync can benefit our team:
Knowledge Discovery: Team members can search for experts or resources related to specific topics, such as Angular, Java, or any other area of expertise.
Expert Matching: When a team member encounters a problem or needs guidance on a particular topic, SkillSync will suggest potential experts within the team who can provide assistance based on their knowledge and experience.
And many more..

ACHIEVEMENT

2023 - Rising Star Award for my work in the Company
